How the AMP Plan Works

Your utility bill varies each month depending on the amount of electricity, water, and/or natural gas that you use in your home or apartment. Your monthly bill is typically higher during the hottest summer months and the coldest winter months.

The Average Monthly Payment Plan (AMP) is designed to make your utility bill close to the same amount for each month of the year.

So how do we determine the amount of your bill? We will calculate your monthly average using the most recent 12 months bills. This way you can manage your budget more effectively because you will know in advance how much your utility bill is going to be.

Each month the amount may vary, but only slightly since the billing office will recalculate the average each month.

How do you know if you qualify for this FREE billing plan?

City of Boerne residential customers will qualify if the following conditions are met:

- Must be a Boerne Utilities customer for previous 12 months.
- Must meet the city's credit criteria with no more than one late payment in the last 12 months.

AMP Plan Terms & Conditions

- You must have a good payment record and a 12 month payment history. Your account must remain in good standing to continue participating in the program.
- You may continue to remit payments in any manner convenient to you, including bank and credit card drafts.
- You may cancel at any time with a written notice of at least 10 days in advance. Final settlement will be reflected on the following bill.
- City of Boerne meter technicians will continue checking your meters and you will still receive a monthly statement.
- AMP billing will commence the next billing cycle following the receipt and processing of the request.

To request enrollment in the AMP plan, contact the Utilities Customer Care & Billing office at Billing@ci.boerne.tx.us or call (830) 249-9511.
