

RECLAIMED WATER

(billed in 1000 gallons)

Monthly Rate = Monthly Customer Charge (based on the meter size) + Monthly Volume Charge

Customer charge is a base charge for having a meter/service. If no energy is used within a billing period, a customer charge will still be applied.

RATES FOR OUT-OF-CITY RECLAIMED WATER SERVICE- Per Section 201.2 of the City of Boerne Utility Rules and Regulations, reclaimed water services are not extended outside the City of Boerne limits unless doing so is deemed beneficial to the City by the City Council. If such service is deemed beneficial and provided to the out-of-City customer, the current approved rates for reclaimed water will be subject to a rate modifier. The rate modifier for the out-of-City customer is 20% which includes the customer, volume charge and all other specific rate elements. This rate modifier is based on the cost of service and is due to the fact that such out-of-City customers are not subject to the ownership risk for the utility system debt that is assumed by citizens served by the City of Boerne utilities.

Rates as of October 1, 2018

RECLAIMED WATER SERVICE RATE SCHEDULE
