

<b>ELECTRIC</b>
-----------------

(billed per kWh)

**Monthly Rate = Monthly Customer Charge + Seasonal Monthly Energy Charge + Power Cost Recovery Factor Charge ( PCRF) + kW demand (if applicable) + taxes (if applicable)**

Customer charge is a base charge for having a meter/service. If no energy is used within a billing period, a customer charge will still be applied.

Seasonal Energy charge is the cost for each kWh used.

Winter billing is October through May.

Summer billing is June through September.

PCRf is the P(ower) C(ost) R(ecovery) F(actor). It is a pass-through, charged on each kWh used, from our provider that is reflected in the bill each month. The PCRf varies monthly based on the cost of energy for the month that is charged to us by our provider.

**Rates as of October 1, 2017**

**RESIDENTIAL ELECTRIC SERVICE RATE CLASSIFICATION**
